Dear Sir/Madam,

Sub: Request for construction of water tank for wild animals- Reg.

With subject cited above, the University covers an area of 780 acres with rich biotic flora and fauna. Now a days, regularly some wild animals wandering inside our university premises for searching water source to suppress their thirst due to dry environment of the adjacent Maruthamalai forest. Garden also found the leopard damaged the water outlet and drunk water from hydrophytes. So, in order to avoid human and animal conflict it is to request to construct water tank of 20,000 litre capacity on the way of the animal pathway of university premises. This is for your kind information.

Thanking you.
